PART TIME OCCUPATIONAL THERAPIST NEEDED

POSITION DETAILS:

Working in the clinic 1 - 2 days per week with potential to increase work load. Preferred Friday/Saturday with the possibility of another day as the caseload builds.

Assessment and intervention in paediatric occupational therapy ages 3-16 with variety of diagnosis including: ASD, SPD, ADHD, DCD, LD, Seizure Disorders, Brain Injury, Retts Syndrome, Down Syndrome, Global Developmental Delay, Cognitive challenges, Handwriting/printing challenges, Dysgraphia, Gross motor and Fine motor delays, etc.

Report writing and providing consultation and recommendations to parents, schools, and caregivers; attending IEPs, parent meetings; and working collaboratively with other professionals. This position requires strong communication and writing skills, and the ability to connect with children and their parents.

APPLICATION REQUIREMENTS

The candidate must be a member of COTBC, have a minimum of 2 years of clinical experience in paediatric occupational therapy OR if newly graduating significant and relevant experience with children. Being listed as an RASP service provider is an asset.
