

Symmetry Injury Rehabilitation Ltd. is looking for a community based Occupational Therapist to join our dynamic and growing team of professionals! The position will be providing assessment and rehabilitation services within the Lower Mainland, with an interesting and varied caseload.

With over 32 years combined clinical experience, our therapists assist clients in recovering from a wide variety of injuries. These may include soft tissue and musculoskeletal injuries, traumatic brain injuries, or mental health disorders. Our goal with each client is always to restore function and foster independence, in order to assist them with resuming activities of their daily lives. We help clients to realize their potential for productive lives, to the best of their abilities.

The Occupational Therapists caseload may contain a mixture of case management, hospital discharge coordination, home safety / support assessments, home modifications / environmental assessment and consultation, return to work intervention, coordination of rehabilitation programs, brain injury rehabilitation, community reintegration.

The Occupational Therapist would often work as part of a multidisciplinary team, liaising with Rehabilitation Coordinators, Adjustors, Doctors, Physiotherapists, Kinesiologists, Rehabilitative Assistants, Counselors / Psychologists, and Vocational Consultants. The Occupational Therapist should be self-directed and possess strong interpersonal skills.

Incentives!

- Contract position allows for flexible hours as the Occupational Therapist is able to design his / her own schedule.
- An interesting and varied caseload
- Competitive wage with travel and mileage compensation
- Education Funds and opportunities available
- Support and mentorship provided through a team of experienced Occupational Therapists
- Room for growth into medical legal consultation
- Access to Office Administration as well as a team of experienced Physiotherapists, Vestibular Therapists, Rehab Assistants and Kinesiologists

The successful candidate should have the following qualifications:

- Degree in Occupational Therapy
- Member in good standing with the CAOT
- Possess Professional Liability Insurance as well as Commercial Liability Insurance
- Have access to a vehicle to drive to / from clients' homes
